Beyond Scanning : Specialized for All-on-X

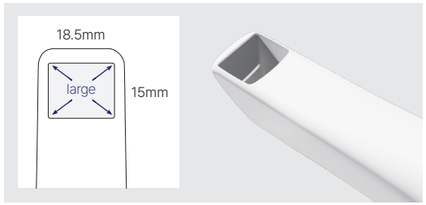

FREEDOM Air

DOF

Large Scan Area

With a wide scanning area of 18.5 × 15mm and a deep depth of field of 25mm, it enables fast and precise acquisition of scan data.

Voice Memo

Memos can be recorded using the voice recognition feature, with automatic summaries provided by AI.

LED Light

The scanner's status and cable connection can be intuitively checked through the LED light indicator.

DOF SYNC

DOF SYNC : Designed for user convenience, DOF SYNC enables the fast and seamless transmission of scan data to partners.

Lightweight 145g

It weighs only 145g, making it the lightest intraoral scanner currently available on the market. Additionally, it significantly reduces wrist fatigue during scanning, enhancing user comfort.

D-Pad Control

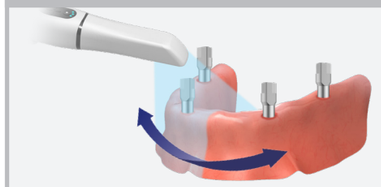

The scanner is equipped with a D-Pad control, enabling fast and hygienic operation.

PIM Solution Precise Implant Measurement Solution

All-on-X optimized scanning solution for both clinicians and patients.

Limitations of Other IOS

Requires a full-arch scan

Risk of data distortion

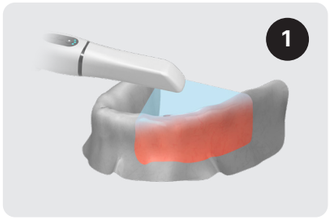

FREEDOM Air PIM Solution

Just **One-Shot** Scan

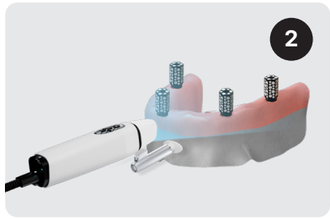

Ensures high precision

Scan Procedure

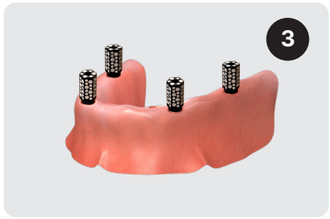

Intra-Oral Scan

Proceed with edentulous scanning as usual.

Scan Body Scan

Scan the scan body in just one shot outside the mouth with Guide Tool.

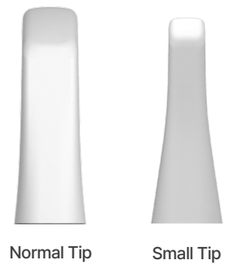

Merged Scan Body Data

Use an IOS to scan the scan body inside the mouth.

Technical Specification

Dimensions		219 × 35 × 36.6mm
Weight		145g (Including Normal Tip)
Scan Tip	Number of Tips	**Normal Tip** : 25 × 19.9mm*3ea **Small Tip** : 16.3 × 13.5mm*1ea
	Field of View	**Normal Tip** : 18.5 × 15mm **Small Tip** : 10 × 9mm
Scan Depth		25mm
Data Output		STL, PLY, OBJ

Normal Tip

Small Tip

About DOF Inc.

DOF is a CAD/CAM solution company specializing in developing the world's best 3D dental scanners and dental milling machines. Since the foundation in 2012, DOF has been bringing a new sensation to the industry and has been indicating a rapid growth through developing camera moving scanners. DOF always leads the market through developing innovative products such as FREEDOM X5, a 5-megapixel 3D dental scanner boasting the highest precision in the world, and FREEDOM F, a face scanner capable of directly reproducing the face of a patient into 3D data.

DOF promises to grow as we communicate with our customers. Every product provided by DOF is planned and designed through taking into consideration what functions are required by our customers and what may be considered inconvenient by our customers. Even after a product is complete, DOF continuously applies the feedback provided by our customers to improve our products. To help our customers work more conveniently and joyfully is the dream and future DOF envisions.
